It is a very relaxing and valuable massage.

Reflexology

60 mins. 80 € including a footbath

Reflexology is extremely powerful in alleviating pain and discomfort, and in many cases produces immediate results. It is a deep massage of the soles of your feet mostly, promoting general well-being and relaxation. This will leave you utterly re-energized.

Asali “Honey”

70 mins. 105 €

Honey is one of nature's real treasures. It is a potent antioxidant, decongestant and a strong detoxifier when applied in massage therapy. It is worked on the back and in areas with cellulite and when sticky, a “pumping out” action gently lifts the fascia and muscle and draws out toxins. Those toxins will be removed from your skin with a hot towel at the end of the treatment. Almond oil with lavender will be applied after this. It is a detoxifying treatment that nourishes the skin while dissolving any trace of heaviness or fatigue.
